

Resource Navigation

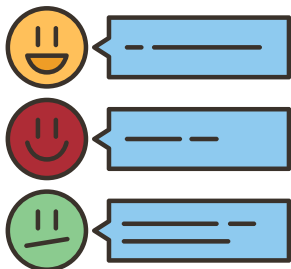

Statewide Connections

- List of all LGBTQ+ affirming providers and organizations across North Dakota
- Resources on transition-related care and opportunities specific to North Dakota
- Connection to all other resource centers within the state for housing, income, shelter, and so on.

Resource Coordination

Harbor Health Initiative can be contacted to talk through the resources we host, find new resources for individuals that aren't currently listed, and give an overview of what utilizing resources looks like if individuals feel overwhelmed. We do not provide medical or legal advice or case management.

Community Feedback

Our resources are only as good as the information we get from the community. We're always taking information and recommendations to add, corrections to things that are outdated, and feedback to improve!
